The American Math Challenge

We will be joining students aged 9 – 14 across America in an exciting online math challenge! Students will have the task of answering as many math questions correctly as possible. We will be practicing during the week of November 2nd and the challenge itself runs from November 9th – 16th. Students will be able to play during LEAP and at home with internet access. One point for each correct answer is earned by playing the Live Mathletics game online. Ten points will be given for answering interactive math questions. More information is available online at www.americanmathchallenge.com.

The Needs of Gifted Students

A presentation entitled, "The Needs of Gifted Students" will be given on Tuesday, November 17th at 7:00PM at Alvernia College Upland Center in room 227 near Reading, PA. Pennsylvania Association of Gifted Education (PAGE) speaker Dawn Settle will describe the cognitive and affective needs of gifted students, how parents can "read" their gifted child, and appropriate program options.
